

SPEEDSEED WB

The Speed-Seed WB is the ideal machine to carry out all your overseeding works on fine turf areas, and is fitted with a long life Honda engine 6½ HP and hydrostatic transmission, which produces an infinite range of forward and reverse speeds. All operating controls are mounted on the handlebars for easy use, and maneuverability is made easy by the side wheels, which transfer the machine's weight when turning. The grass seed is spread accurately the full 24" width of the spiked area, by the precision twin matched stainless steel aperture sections. A cam gauge and lever control the seeding rates. A rear mounted brush sweeps the seed into the thousands of created of holes—leaving a groomed finish.

SPEEDSEED WB

WORKING SPECIFICATIONS

Engine	6 1/2 HP
Working Width	24" (60cm)
Weight	463 lbs. (210kg)
