

Easy-Load

Save time,
effort and
manpower...

Customers who own the Easy-Load topdressing trailer tell us that they can now topdress "twice as fast, with half the manpower".

You also eliminate the risk of back injury at the same time. Now you can transport your sand and load it directly into your topdresser with no manual handling.

The massive 16" flotation tyres are spaced outside of the body which gives extra stability when you are tipping in the high position.

The Easy-Load is designed to be your ideal all-round three tonne trailer. It is equipped as standard with a dual-purpose tailgate which incorporates a flow control gate and a loading chute within itself, and is also top-hinged in the conventional way. This enables you to use the Easy-Load for general tipping trailer duties as well as loading your topdresser, thus giving you maximum value from your investment. A further advantage is that it will operate from a single trailer-tipping pipe, without a double-acting spool valve.

Wheels spaced outside body width provide extra stability for high tipping.

"The Greenkeeper's best friend."

The Easy-Load can also be used as a conventional tipping trailer.

*Carriage charge applies.

"Best item of equipment I have ever purchased. It has taken hours off topdressing and bulk material moving. Easy to use for filling Cushman topdresser, freeing up two staff members for other tasks."

Suitable for use with modern spinner type topdressers.

THE SOLUTION...

- ✓ Eliminates manual handling, in line with HSE -objectives
- ✓ Frees up manpower for other important jobs
- ✓ Speeds up topdressing so greens are back in play quicker
- ✓ Unique design with wheels outside of the body for maximum stability and safety
