

R I N K

DS 2000

The Rink DS2000 Disc Spreader is a large top-dresser with dual spinners and a variable spread pattern of up to 40 feet. Its total capacity is 2.6 cubic yards and it can cover a lot of turf in a short time. The high floatation tires have a lighter footprint than the most competitors and the state of the art spinners leave an even spread pattern that is unequaled.

# RINK DS 2000
